The BMW limited warranties apply only to U.S.-specification BMW vehicles and cover eligible warranty repair or replacement work when the warranty service is performed at an authorized BMW center in the United States (including Puerto Rico), subject to all applicable exclusions and/or limitations.

NEW VEHICLE LIMITED WARRANTY FOR PASSENGER CARS AND LIGHT TRUCKS — 2022 MODELS (VALID ONLY IN THE U.S.A. INCLUDING PUERTO RICO)

WARRANTOR

BMW of North America, LLC (BMW NA) warrants during the Warranty Period the 2022 U.S.-specification BMW vehicles distributed by BMW NA or sold through the BMW NA European Delivery Program against defects in materials or workmanship to the first retail purchaser, and each subsequent purchaser.

WARRANTY BEGINS

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Aftersales Mobility Program (AMP) Vehicle or company vehicle, whichever is earlier.

WARRANTY PERIOD

The warranty period is 48 months or 50,000 miles, whichever occurs first, except as noted below.

WARRANTY COVERAGE

To obtain warranty service coverage, the vehicle must be brought, upon discovery of a defect in material or workmanship, to the workshop of any authorized BMW center in the United States (including Puerto Rico) during normal business hours.

The authorized BMW center will, without charge for parts and labor (including diagnosis), either repair or replace the defective part(s) using new or authorized remanufactured parts. The decision whether to repair or replace said part(s) is solely the prerogative of BMW NA. Parts for which replacements are made become the property of BMW NA. In all cases, a reasonable time must be allowed for warranty repairs to be completed after the vehicle is received by the authorized BMW center.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

SAFETY BELT WARRANTY — KANSAS

Safety belts are covered under the BMW New Vehicle Limited Warranty for defects in material or workmanship for a period of 10 years, unlimited mileage from the date of purchase. In order to be eligible for this coverage, the vehicle must be a new car retailed in the State of Kansas and the repair performed by an authorized BMW center in Kansas.

OTHER ITEMS

Wheel alignment, balancing and wiper blade inserts are covered up to the first 2,000 miles on the vehicle.

Items which are subject to wear and tear or deterioration due to driving habits or conditions, such as brake pads/linings, brake discs, filters, upholstery, trim and chrome items, paint finish, drive belts, glass, and similar items, their coverage is specifically limited to defects in material or workmanship.

Additionally, wood trim and leather upholstery have inherent variations in color and texture, dependent upon being properly cleaned and maintained. These items may lighten or darken due to age or exposure to sunlight; this is not a defect in materials or workmanship.

Battery performance and durability are temperature-dependent. While battery capacity increases in higher temperatures, colder temperatures will lower the battery's capacity. Extreme high and/or low temperatures may impact the battery's service life.

What is not covered:

Remote control transmitter battery replacement.

Damage, including consequential, which results from negligence, misuse/ improper operation of the vehicle, improper repair, lack of or improper maintenance, environmental influences, flood, accident or fire damage, road salt corrosion, or the use of improper fuel as described in the Owner's Manual or contaminated fuel.

Damage to the engine, transmission or any related component caused by improper shifting of the transmission.

Damage to the paint finish due to stone chips, nicks, dents, acid rain, industrial fallout, other environmental influences, and normal deterioration, such as fading, discoloration, or loss of luster, improper care/repair of matte paint finishes, as well as damage caused by lack of maintenance, excessive rubbing, the use of improper cleaners, polishes and/or waxes.

Maintenance services and parts when replaced during maintenance such as spark plugs, lubricants, fluids, engine tune-up parts, replacement of filters, coolant, and refrigerant.

Modification of the vehicle or installation of any performance accessories or components attached to the vehicle which alters the original engineering and/or operating specifications or which results in damage to the other original components, electrical interference, electrical short, radio static, water leaks and wind noise.

Tires are warranted by their respective manufacturer. See the Tire Warranty Statement on page 23.

Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires that provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

Non-genuine BMW Parts — While you may elect to use non-genuine BMW parts for maintenance or repair services, BMW NA is not obligated to pay for repairs of the non-genuine BMW parts or for repairs of any damage resulting from the use of non-genuine parts.

This warranty shall be null and void for specific vehicle components that were previously replaced with used or salvaged automobile parts, including repairs of any damage resulting from the use of these parts.

This warranty shall be null and void if the odometer has been replaced or altered and the true mileage on the vehicle cannot be determined, and/or the Vehicle Identification Number (VIN) is altered and/or cannot be determined.

This warranty shall be null and void if the vehicle has been declared a total loss or sold for salvage purposes, or if the vehicle has been used in any competitive event.

GENERAL

These warranties give you specific legal rights, and you may also have other rights which vary from state to state.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTIES HEREIN.

BMW NA HEREBY EXCLUDES INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF TIME, INCONVENIENCE, OR LOSS OF USE OF THE VEHICLE, FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, APPLICABLE TO THIS PRODUCT.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

THE BMW ULTIMATE CARE SCHEDULED MAINTENANCE PROGRAM — AVAILABLE AT: WWW.BMWUSA.COM/EXPLORE/BMW-VALUE/BMW-ULTIMATE-SERVICE/SERVICE-AND-WARRANTY-BOOKS/>.HTML

The BMW Ultimate Care Scheduled Maintenance Program is provided for the exclusive benefit of the first purchaser, owner, or lessee of a new vehicle, sales demonstrator vehicle, Aftersales Mobility Program (AMP) vehicle, or BMW Group company vehicle from an authorized BMW center in the United States (including Puerto Rico).

Accordingly, the BMW Ultimate Care Scheduled Maintenance Program, with one exception, is not transferable to subsequent purchasers, owners, or lessees. The sole exception to the non-transferability of the BMW Ultimate Care Scheduled Maintenance Program is that household transfers – transfers within the United States (including Puerto Rico) to members of the household of the initial purchaser, owner, or lessee of the vehicle from an authorized BMW center – will not terminate the BMW Ultimate Care Scheduled Maintenance Program. Household transfers are limited solely to transfers to a current or former spouse or spousal equivalent, child, sibling, parent, grandparent, or grandchild from the initial purchaser, owner, or lessee of the vehicle. In the event of a household transfer, please promptly advise your authorized BMW center to document and confirm the household transfer for purposes of the BMW Ultimate Care Scheduled Maintenance Program.

The payoff of a loan on a vehicle by the initial purchaser and the purchase of a leased vehicle by the initial lessee are not considered transfers for purposes of the BMW Ultimate Care Scheduled Maintenance Program.

Absent a vehicle transfer, a 2021 vehicle purchased from an authorized BMW center in the United States (including Puerto Rico) is covered by the BMW Ultimate Care Scheduled Maintenance program for 36 months or 36,000 miles, whichever occurs first.

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Aftersales Mobility Program (AMP) Vehicle or BMW Group company vehicle, whichever is earlier (the vehicle's original in-service date).

To obtain warranty service coverage, the vehicle must be brought, upon discovery of any rust perforation, to the workshop of any authorized BMW center. The authorized BMW center will, without charge for parts or labor, either repair or replace the defective part(s). The decision whether to repair or replace said part(s) is solely the prerogative of BMW NA. Parts for which replacements are made become the property of BMW NA.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

BMW of North America, LLC (BMW NA) makes no other express warranty on this product except for the new car warranty, rust perforation or the emission system warranties.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTIES HEREIN.

BMW OF NORTH AMERICA, LLC (BMW NA) HEREBY EXCLUDES INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF TIME, INCONVENIENCE, OR LOSS OF USE OF THE VEHICLE, FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, APPLICABLE TO THIS PRODUCT.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Any legal claim or action arising from any express or implied warranty contained herein must be brought within 12 months of the date it arises.

WHAT IS NOT COVERED

This warranty does not apply to damage, including consequential, which results from negligence, misuse/improper operation of the vehicle, improper repair, lack of or improper maintenance, environmental influences, flood, accident or fire damage and road salt corrosion.

Non-genuine BMW Parts — While you may elect to use non-genuine BMW parts for repair services, BMW NA is not obligated to pay for repairs of the non-genuine BMW parts or for repairs of any damage resulting from the use of non-genuine parts.

This warranty shall be null and void for specific vehicle components that were previously replaced with used or salvaged automobile parts, including repairs of any damage resulting from the use of these parts.

This warranty shall be null and void if the odometer has been replaced or altered and the true mileage on the vehicle cannot be determined, and/or the Vehicle Identification Number (VIN) is altered and/or cannot be determined.

This warranty shall be null and void if the vehicle has been declared a total loss, sold for salvage purposes, or if the vehicle has been used in any competitive event.

FEDERAL EMISSIONS SYSTEM DEFECT WARRANTY (VALID ONLY IN THE U.S.A. INCLUDING PUERTO RICO)

This warranty applies only to U.S.-specification vehicles distributed by BMW of North America, LLC (BMW NA) or sold through the BMW NA European Delivery Program.

In accordance with the defect warranty provisions of section 207(b) of the Clean Air Act, BMW NA warrants to the first retail purchaser, and each subsequent purchaser, that the car (a) was designed, built and equipped so as to conform, at the time of sale, with all regulations of the U.S. Environmental Protection Agency applicable at the time of manufacture and (b) is free from defects in materials and workmanship which would cause it to fail to conform with applicable regulations for a period of 2 years or 24,000 miles, whichever occurs first, except for specific emission control components (as listed on page 14), for which the warranty period is 8 years or 80,000 miles, whichever occurs first.

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Aftersales Mobility Program (AMP) Vehicle or company vehicle, whichever is earlier.

Warranty claims must be made as soon as reasonably possible after a defect is discovered. To make a claim, the car must be brought to any authorized BMW center during normal business hours.

The authorized BMW center will, without charge for parts and labor (including diagnosis), either repair or replace the defective part, if any. The decision whether to repair or replace said parts is solely the prerogative of BMW NA and must be expected to correct the failure of the warranted part. Parts for which replacements are made become the property of BMW NA. In all cases, a reasonable time must be allowed for warranty repairs to be completed after the car is received by the authorized BMW center.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

For assistance in determining which specific parts or components of your vehicle are covered under this warranty, please contact your authorized BMW center.

It is the owner's responsibility to have all scheduled inspection and maintenance services performed (at the owner's expense when applicable), as prescribed in the maintenance schedule for the BMW Emission Control System. Service intervals are computed by the onboard BMW Condition Based Service system and displayed on the instrument panel. The

instructions for proper maintenance and use can be found in the Owner's Manual. It is strongly recommended that any replacement parts used for maintenance, repair or replacement of emission control systems be certified BMW Service Parts or BMW Authorized Remanufactured Parts. Without invalidating this warranty, the owner may elect to have maintenance, repair or replacement of the emission control systems performed by any automotive repair establishment, or elect to use parts other than certified BMW Service Parts. However, the cost of such service or parts will not be covered under this warranty, except in emergency situations. In an emergency situation, where an authorized BMW center or a warranty replacement part is not reasonably available (within 30 days), repairs may be performed at any available service establishment using any equivalent part. BMW NA will reimburse the owner for such emergency repairs (including labor, parts and diagnosis not to exceed BMW NA rates for labor, parts, and diagnosis in said area) that are covered under this warranty. Replaced parts and paid invoices must be presented at an authorized BMW center as a condition of reimbursement for emergency repairs not performed by an authorized BMW center.

The use of replacement parts, which are not of equivalent quality, may impair the effectiveness of the emission control system. If other than certified BMW Service Parts or Authorized Remanufactured Parts are used for maintenance, repair or replacement of components affecting emission control, the owner should obtain assurances that such parts are warranted by their manufacturer to be equivalent to genuine BMW parts in performance and durability. BMW NA assumes no liability under this warranty with respect to parts other than genuine BMW parts.

However, the use of non-genuine BMW replacement parts or non-EPA certified parts does not invalidate the warranty on other components, unless non-genuine BMW parts or non-EPA certified parts cause damage to warranted parts.

WHAT IS NOT COVERED

The car or any part of the car, unless the failure causes the car to fail to conform to the applicable emission regulations.

Malfunctions, including consequential, caused by negligence, misuse/ improper operation of the vehicle, environmental influences, flood, accident or fire damage.

Malfunctions, including consequential, caused by improper adjustment/repair, modification, alteration, tampering, disconnection, improper or inadequate maintenance except if one or more of these occurred as a result of repair work that was performed by an authorized BMW center under warranty.

For gasoline engines, malfunctions caused by the use of leaded fuel or fuels containing more than 10% ethanol, or other oxygenates with more than 2.8% oxygen by weight (i.e., more than 15% MTBE or more than 3% methanol plus an equivalent amount of co-solvent and/or as specified in the Owner's Manual).

Spark plugs, filters, and similar maintenance items are not covered under this warranty at or beyond the first replacement interval, or if the part has been replaced earlier for reasons other than it being defective.

Any car on which the odometer has been replaced or altered and the true mileage cannot be determined.

Any car on which the Vehicle Identification Number (VIN) is altered and/or cannot be determined.

GENERAL

These warranties give you specific legal rights, and you may also have other rights which vary from state to state.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTIES HEREIN.

BMW NA HEREBY EXCLUDES INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF TIME, INCONVENIENCE, OR LOSS OF USE OF THE VEHICLE, FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, APPLICABLE TO THIS PRODUCT.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you. Additionally, if your vehicle is either registered in the State of California, Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont or Washington, your vehicle is also eligible for the California Emissions Warranty coverage beginning on page 15.

These federal warranty provisions also apply to all vehicles sold in all U.S. states and territories regardless of whether a state has enacted state warranty provisions that differ from the federal provisions.

FEDERAL EMISSIONS PERFORMANCE WARRANTY (VALID ONLY IN THE U.S.A. INCLUDING PUERTO RICO)

In those states and jurisdictions that have established periodic vehicle emissions tests to encourage proper vehicle maintenance and require the car to pass an emissions test approved by the U.S. Environmental Protection Agency and:

1. The car was distributed by BMW of North America, LLC (BMW NA), or sold through the BMW NA European Delivery Program; and
2. The car has been maintained and operated in accordance with the instructions for proper maintenance and use set forth in the Owner's Manual supplied with the car; and
3. The car fails to conform to the applicable emissions standards of the EPA as judged by an EPA-approved emissions test; and
4. The failure to conform results or will result in the owner of the car having to bear a penalty or other sanction (including the denial of the right to use the car) under local, state or federal law if the non-conformity is not remedied within a specified period of time.

Then, in accordance with the provisions of section 207(b) of the Clean Air Act, BMW NA warrants that if the car is eligible for coverage under this warranty, any non-conformities in the car, which cause it to fail an EPA-approved emissions test will, without charge for parts or labor (including diagnosis), be adjusted, repaired, or replaced, at the option of BMW NA to proper specifications, in order to make the car comply with applicable emissions standards. The decision whether to adjust, repair or replace parts is solely the prerogative of BMW NA and must reasonably be expected to correct the failure of the warranted part.

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Aftersales Mobility Program (AMP) Vehicle or company vehicle, whichever is earlier. This warranty continues for a period of 2 years or 24,000 miles, whichever occurs first, except for specific emissions control components (as listed on page 14), for which the warranty period is 8 years or 80,000 miles, whichever occurs first.

This warranty is made subject to the terms and conditions that apply to the Emission Control System Warranty and the New Vehicle Limited Warranty.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

No claim under this warranty will be denied on the basis of use of a properly installed EPA certified emission part for maintenance and repair.

A vehicle manufacturer may deny an emission performance warranty claim on the basis of an uncertified replacement part used in the maintenance or repair of a vehicle only if the vehicle manufacturer presents evidence that the uncertified replacement part is either defective in materials or workmanship or not equivalent from an emission standpoint to the original equipment part.

Maintenance, replacement, or repair of emission control devices and systems may be performed by any automotive repair establishment or individual using any certified part.

Immediately after the car has failed an EPA-approved emission short test, your claim can be made at any authorized BMW center. The authorized BMW center will honor or deny your claim within the time period specified by local or state laws (not to exceed 30 days), to avoid further penalties or sanctions. If the claim is denied, the authorized BMW center will notify you in writing of the reason(s). The authorized BMW center is required by law to honor the claim if notice of denial is not received by the owner within the specified time period.

GENERAL

These warranties give you specific legal rights, and you may also have other rights which vary from state to state.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTIES HEREIN.

BMW NA HEREBY EXCLUDES INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF TIME, INCONVENIENCE, OR LOSS OF USE OF THE VEHICLE, FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, APPLICABLE TO THIS PRODUCT.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you. Additionally, if your vehicle is either registered in the State of California, Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont or Washington, your vehicle is also eligible for the California Emissions Warranty coverage beginning on page 15.

These federal warranty provisions also apply to all vehicles sold in all U.S. states and territories regardless of whether a state has enacted state warranty provisions that differ from the federal provisions.

CALIFORNIA EMISSION CONTROL WARRANTY STATEMENT* YOUR WARRANTY RIGHTS AND OBLIGATIONS

The California Air Resources Board and BMW of North America, LLC (BMW NA) are pleased to explain the emission control system warranty on your 2022 vehicle. In California, new motor vehicles must be designed, built and equipped to meet the State's stringent anti-smog standards. BMW NA must warrant the emission control system on your vehicle for the periods of time listed below provided there has been no abuse, neglect or improper maintenance of your vehicle.

*The California Emissions Control System Limited Warranty applies to all 2022 U.S.-specification BMW vehicles registered in California, Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont or Washington. Vehicles covered by this warranty are also covered by the Federal Emission Warranty.

Your emission control system may include parts such as the fuel injection system, the ignition system, catalytic converter, and engine computer. Also included may be hoses, belts, connectors and other emission-related assemblies.

Where a warrantable condition exists, BMW NA will repair your vehicle at no cost to you including diagnosis, parts and labor.

MANUFACTURER'S WARRANTY COVERAGE

- For 3 years or 50,000 miles, whichever occurs first:

1. If your vehicle fails a Smog Check inspection, all necessary repairs and adjustments will be made by BMW NA to ensure that your vehicle passes the inspection. This is your emission control system **PERFORMANCE WARRANTY**.
2. If any emission-related part on your vehicle is defective, the part will be repaired or replaced by BMW NA. This is your short-term emission control system **DEFECTS WARRANTY**.

- For 7 years or 70,000 miles, whichever occurs first:

If an emission-related part specially noted on page 21 as having coverage for 7 years or 70,000 miles is defective, the part will be repaired or replaced by BMW NA. This is your long-term emission control system **DEFECTS WARRANTY**.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

OWNER'S WARRANTY RESPONSIBILITIES

- As the vehicle owner, you are responsible for the performance of the required maintenance listed in your Maintenance booklet. BMW NA recommends that you retain all receipts covering maintenance on your vehicle, but BMW NA cannot deny warranty solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance.
- You are responsible for presenting your vehicle to an authorized BMW center as soon as a problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days.
- As the vehicle owner, you should also be aware that BMW NA may deny your warranty coverage if your vehicle or part has failed due to abuse, neglect, improper maintenance or unapproved modifications.

CALIFORNIA EMISSION CONTROL SYSTEM LIMITED WARRANTY*

This warranty applies to California certified vehicles distributed by BMW of North America, LLC (BMW NA) or sold through the BMW NA European Delivery Program, registered and operated primarily in California.

*The California Emissions Control System Limited Warranty applies to all 2022 U.S.-specification BMW vehicles registered in California, Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont or Washington. Vehicles covered by this warranty are also covered by the Federal Emission Warranty.

BMW NA warrants to the original purchaser and each subsequent owner that the vehicle is:

- a. designed, built and equipped so as to conform with the applicable California Air Resources Board emission standards.
- b. free from defects in materials and workmanship which cause any part that can affect emissions to fail to conform with applicable requirements or to fail a California Smog Check test or EPA-approved short test for a period of 3 years or 50,000 miles, whichever occurs first.
- c. free from defects in materials and workmanship in emission-related parts, which are contained in the California Emission Warranty Parts List on page 21, for a period of 7 years or 70,000 miles, whichever occurs first.

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Aftersales Mobility Program (AMP) Vehicle or company vehicle, whichever is earlier.

To obtain service under this warranty, the vehicle must be brought, upon failure of a Smog Check test or upon discovery of the defect, to the workshop of any authorized BMW center, during normal business hours. The authorized BMW center will honor or deny your claim within 30 days. If the claim is denied, the authorized BMW center will notify you in writing of the reason(s). The authorized BMW center is required by law to honor the claim if notice is not given to the owner within 30 days.

The authorized BMW center will, without charge for parts or labor (including diagnosis), either adjust, repair or replace the defective part and other parts affected by the failure of the warranted part, if any. If your vehicle failed the California Smog Check test or an EPA-approved short test, then BMW NA will repair your vehicle so that it will pass this test. Items that require scheduled

replacement are warranted up to the replacement interval specified in the BMW Maintenance booklet. BMW NA may repair a part in lieu of replacing it when performing warranty repairs. Parts for which replacements are made become the property of BMW NA. After 3 years or 50,000 miles, and in accordance with paragraph (c) above, such repairs are limited to the repair or replacement of those parts identified in the California Emissions Warranty List.

Vehicles sold in California are also subject to Federal emission warranty provisions that run concurrently. For California vehicles, the specific emission control components listed on page 14 are also covered under the Federal Emission System Defect Warranty of 8 years or 80,000 miles, whichever occurs first.

If, within 7 years or 70,000 miles, whichever occurs first, the vehicle fails a Smog Check because of a defect in a part listed in the California Emission Warranty Parts List on page 21, repair or replacement will be performed under this warranty.

A repair performed as the result of a Smog Check test failure due to a defect in a part, which is warranted for 7 years/70,000 miles, is covered.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

In all cases, a reasonable time, not to exceed 30 days, must be allowed for a warranty repair to be completed, after the car is received by the authorized BMW center.

It is the owner's responsibility to have all required maintenance services performed (at the owner's expense when applicable), as prescribed in the maintenance schedule for the BMW Emission Control System. Service intervals are computed by the Condition Based Service system and displayed on the instrument panel.

However, BMW NA will not deny your warranty repair claims solely because you do not have maintenance records or you did not perform the required maintenance unless BMW NA demonstrates that such lack of required maintenance is a direct cause of the emission control system failure. Instructions for required maintenance and use can be found in the Owner's Manual and in the BMW Maintenance booklet.

It is strongly recommended that any replacement parts used for maintenance, repair or replacement of emission control systems be genuine BMW Service Parts or BMW Authorized Remanufactured Parts. Without invalidating this warranty, the owner may elect to have maintenance, repair or replacement of the emission control systems performed by any automotive

repair establishment, or elect to use parts other than BMW Authorized Remanufactured or genuine BMW Service Parts. However, the cost of such service or parts will not be covered under this warranty, except in emergency situations. In an emergency situation, where an authorized BMW center is not reasonably available or a warranty replacement part is not available within 30 days, repairs may be performed at any available service establishment or by any individual using any replacement part.

A repair not completed within 30 days constitutes an emergency. BMW NA will reimburse the owner for such emergency repairs (including labor, parts and diagnosis not to exceed BMW suggested retail price for all warranted parts replaced and labor charges based on the manufacturer's recommended time allowance for the warranty repair and the geographically appropriate hourly labor rate) that are covered under this warranty. Replaced parts and paid invoices must be presented to an authorized BMW center as a condition of reimbursement for emergency repairs not performed by an authorized BMW center.

The use of replacement parts, which are not of equivalent quality, may impair the effectiveness of emission control systems. If other than genuine BMW Service Parts or Authorized Remanufactured Parts are used for maintenance, repair or replacement of components affecting emission control, the owner should obtain assurances that such parts are warranted by their manufacturer to be equivalent to genuine BMW parts in performance and durability. BMW NA assumes no liability under this warranty with respect to parts other than genuine BMW parts.

However, the use of non-genuine BMW replacement parts does not invalidate the warranty on other components, unless non-genuine BMW parts cause damage to warranted parts.

WHAT IS NOT COVERED

The car or any part of the car, unless the failure causes the car to fail to conform to the applicable emission regulations.

Malfunctions, including consequential, caused by negligence, misuse/ improper operation of the vehicle, environmental influences, flood, accident or fire damage.

Malfunctions, including consequential, caused by improper adjustment/repair, modification, alteration, tampering, disconnection, improper or inadequate maintenance except if one or more of these occurred as a result of repair work that was performed by an authorized BMW center under warranty.

TIRE WARRANTY STATEMENT

Original equipment tires on new BMW vehicles are warranted by their respective manufacturer as detailed in the applicable tire manufacturer's warranty statement available at:

www.bmwusa.com/explore/bmw-value/bmw-ultimate-service/service-and-warranty-books/.html

or by scanning the following QR code:

Alternatively, you may request a printed copy of the tire manufacturers' warranties using the contact information listed below.

BMW of North America, LLC
Customer Relations and Services Department
P.O. Box 1227
Westwood, NJ 07675-12271
Telephone: 1 (800) 831-1117
Email: customerrelations@bmwusa.com

The terms and conditions of the tire manufacturers' warranties are independently determined by the tire manufacturers without input from BMW. We recommend either contacting or visiting the specific tire manufacturer's website to ensure that you have the most current tire warranty information that applies to your tires.

Should you have difficulty in obtaining the applicable warranty service from a tire manufacturer, your authorized BMW center will assist you in resolving the situation.

Instructions for proper tire care and maintenance are contained in the Wheels and Tires section of your vehicle's Owner's Manual.

Notice: Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires that provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

12 VOLT BATTERY CARE

Battery posts, terminals and related accessories contain lead and lead compounds; chemicals known to the State of California to cause cancer.

If your vehicle is driven only for short distances of less than 10 miles over a prolonged period of time, without an occasional drive at highway speeds, the engine's charging system will not maintain the battery. Insufficient use of the vehicle could result in short-term starting problems and, in the long term, could damage the battery.

In case your vehicle will not be operated for several weeks, it is advisable to:

- consider using a proper trickle charger, following the charger manufacturer's instructions, to maintain the battery's state of charge; or
- consult your authorized BMW center or another qualified service center regarding battery removal. Once removed, the battery must be charged and stored in a cool, dry place where it can be protected from freezing. If the battery will be stored for over 3 months, it must be recharged every 3 months, or else it will become damaged and useless.

Please consult with your authorized BMW center or another qualified service center for further guidance and information.

CORROSION PROTECTION

Extensive corrosion protection measures implemented by BMW now make it possible to offer a 12-year unlimited mileage anti-corrosion warranty against rust perforation on your vehicle provided that the vehicle is properly maintained. Information on proper maintenance is available in this Booklet and your vehicle's Owner's Manual.

The major degree of corrosion protection is due to the electrophoretic dip painting process which cathodically deposits paint particles on all body parts, attracting paint particles into the minutest cavities or seams. Body parts are designed to provide optimum corrosion protection.

During manufacture, metal exterior body parts receive an additional corrosion protection coat. Hood, doors, trunk lid or tailgate, and other body parts are coated with PVC and sealed from the outside.

All floor panels receive a resilient coating of PVC for maximum protection against damage due to stones, etc.

Corrosion protection materials tested over many years are applied to the surfaces of cavities and to the entire underside of the vehicle during and after assembly.

For additional information on the 12-year unlimited mileage anti-corrosion warranty, see the Warranty section of this Booklet on page 5.

RESTORING CORROSION PROTECTION

Please take care that anti-corrosion material is replaced when your car is repaired after body or chassis damage.

UNDERBODY MAINTENANCE

The underbody has to be cleaned at least once a year, in Spring, with plain water in order to remove mud, chemical sediments and other deposits. If those materials are not removed, corrosion (rust) will occur on metal components.

Your authorized BMW center can do this anti-corrosion service for you.

Do not apply additional undercoating or rust-proofing on or near the exhaust manifold, exhaust pipes, catalytic converter or heat shields. During driving, the substance used for undercoating could overheat and cause a fire.

GASOLINE ENGINES — FUEL QUALITY

Use fuels advertised to have adequate detergency and low alcohol (such as ethanol) content. Please refer to your Owner's Manual for important information on the fuel recommended for use in your vehicle. The recommended fuel grade is also found on the fuel filler flap. Use of fuels with insufficient detergent and/or excess alcohol can cause driveability problems that necessitate cleaning intake valves and fuel injection valves, and, when applicable, adjusting the engine idle. We recommend having this work performed by your authorized BMW center or another qualified service center, perhaps while regular maintenance is performed. Your authorized BMW center can also recommend a gasoline additive that will provide sufficient detergency. This recommended, unscheduled maintenance, which may be necessitated by use of inappropriate fuels, is not required in order to maintain the emission warranty. It also is not covered by your vehicle's warranty because no defect in material or workmanship or component failure is involved.

NOTICE

The "National Traffic and Motor Vehicle Safety Act of 1966" requires manufacturers to be in a position to contact vehicle owners when a correction of a safety-related defect or noncompliance issue with an applicable federal motor vehicle safety standard becomes necessary.

Please see the Correcting, Updating or Changing Your Address and/or Vehicle Ownership Status Information section that follows.

CORRECTING, UPDATING OR CHANGING YOUR ADDRESS AND/OR VEHICLE OWNERSHIP STATUS INFORMATION

CUSTOMER ASSISTANCE — NOTIFICATION

The recommended procedure for a lock-out is to use the BMW Connected App to initiate a remote door unlock. You must have a valid BMW Assist account with user name and password (call BMW Assist toll-free at 1 (888) 333-6118 if you are unsure of your user name or password). In case the app is not available the Connected Drive specialist may initiate the remote door unlock request by confirming your account. In the event the remote door unlock service is not successful, Roadside Assistance will help try to get you back on the road. A roadside specialist can attempt to arrange alternate transportation (where available) to the nearest authorized BMW center, home or office. You, or the person driving your vehicle are responsible for any expenses related to replacement keys if required.

TOWING SERVICE

In the event of a mechanical breakdown, a collision or road hazard event, your vehicle will be transported (at no cost) to the nearest authorized BMW center. However, you may request for your vehicle to be taken to your servicing BMW center as long as it is within 50 additional miles or less of the "nearest" authorized BMW center. Any additional mileage charges beyond this limit will be your responsibility.

If the breakdown occurs after normal business hours and the designated authorized BMW center cannot accept after-hours deliveries, your vehicle will be transported to a secure storage location and delivered on the next business day.

If you request that the vehicle be taken to a location other than an authorized BMW center, the entire expense will be your responsibility.

Towing requests for vehicles disabled because of casualty, fire, act of God, or violation of law (Federal, State or local) will be at the complete expense of the owner/driver.

If it is necessary for you to have your vehicle towed through your own arrangements, **you must contact BMW Roadside Assistance for an authorization number and instructions on claim reimbursement procedures.**

All claims must be submitted within sixty (60) days of the disablement or occurrence and accompanied by the original receipts. Claims received after that time period may not be honored and are subject to the full discretion of BMW Roadside Assistance. Your servicing BMW center can assist with this process.

ONWARD MOBILITY

If towing is required, onward mobility utilizing ride share services (e.g. Lyft/Uber, etc.) may be requested from the Roadside Assistance specialist to pick up a driver, passengers and luggage from the disablement point to travel back home, hotel, work, school, dealership, etc. A maximum trip distance of 90 miles distance is allowed and covered under the program. Additional distance and resulting costs are the responsibility of the driver.

ROADSIDE TRAVEL SUPPORT

In the event you are in an unfamiliar area and experience an unexpected mechanical breakdown or accident that requires towing of your vehicle, if you have 24/7 Concierge Support as part of your Connected Drive contract* this service will provide assistance in this situation to help reduce your stress and assist with any services required.

If your vehicle does not have 24/7 Concierge Support, as part of your Roadside Assistance coverage you will have access to Roadside Travel Support directly from the Roadside Assistance specialist working your case. This service will help to search and arrange reservations for alternate individual mobility, lodging or public transportation. He or she will also be able to contact another individual to relay emergency information.
